Honor ROLL

MINDY & JON GRAY

In 2012, University of Pennsylvania alumni Mindy and Jon Gray gave a transformational $25 million gift to establish the Basser Research Center for BRCA in honor of Mindy's sister, Faith Basser, who passed away at the age of 44 of ovarian cancer. Recently, the Grays committed an additional $5 million gift to support BRCA-related pancreatic cancer research and launch an External Grants Program to help advance BRCA-related research around the globe.

BASSER CENTER MISSION STATEMENT

To use cutting edge research in basic and clinical sciences to advance the care of individuals living with *BRCA1* and *BRCA2* mutations.

DONATING ANONYMOUSLY

Some friends of the Basser Center wish to remain anonymous. We gratefully recognize their commitment to support our mission to advance BRCA-related cancer research and patient care, and thank them for their kind and thoughtful giving.

"Philanthropy is a catalyst for innovations in BRCA-related research and patient care. It is through the generosity of supporters of the Basser Research Center for BRCA that hope is brought to those affected by BRCA in our community and around the world."

—SUSAN M. DOMCHEK, M.D.

Executive Director, Basser Research Center for BRCA | Basser Professor in Oncology
